(PATENT)

## IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

In re Patent Application of:  
Daisuke Yano et al.

Application No.: 09/787,119

Confirmation No.: 6260

Filed: March 14, 2001

Art Unit: 1773

For: TRANSFERABLE MAGNETIC TAPE,  
METHOD OF MANUFACTURING SAME,  
AND MAGNETIC CARD

Examiner: H. C. Rickman

REQUEST FOR RECONSIDERATION

MS Amendment  
Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Dear Sir:

In response to the Office Action dated 8/15/2007, extended to February 15, 2008 by a Petition for Extension of Time for Three (3) Months, Applicants respectfully request reconsideration of the 35 U.S.C. §103(a) rejection of claims 1-5 and 12-16 as unpatentable over Kobuta et al in view of Marechal et al (both previously applied).

Kubota et al. discloses a magnetic card comprising (1) a planar substrate having at least a surface layer of a thermoplastic resin, (2) a magnetic layer disposed at least one part of a surface of the planar substrate, (3) a color layer disposed on the magnetic layer, and (4) a pattern layer disposed on the color layer. In this magnetic card, the color of the magnetic layer which does not contribute to an attractive appearance is hidden under the color layer, and, because the pattern layer is disposed on the color layer, the pattern is not restricted by the color of the magnetic layer and appears clear due to the presence of the color layer.
